

BANG-O-MATIC

BANG GOLF BANG-O-MATIC 460 BETA TITANIUM DRIVER HEAD

- The **Bang-O-Matic driver** is the longest driver ever made. It holds the current long drive record of 539 yards. It also holds the women's world long drive record of 362 yards, and junior's world long drive record of 400 yards. Bang-O-Matic driver has won 6 world long drive championships since its debut in 2004.
- It holds the Men's RE/MAX Long Drive record at 539 yards. It has won the Ladies RE/MAX Long Drive Championship and set a long drive record that held up for almost 15 years. It has won many other RE/MAX long drive titles. This amazing Driver and complimenting fairway woods and hybrids have become a staple in the bags of those who not only want straighter and longer drives but the distinction of high quality golf clubs that will enhance their game. If you want more distance off the tee and golf clubs you can depend on in any tough situation during your round....look no further than the Bang-O-Matic Series of golf clubs. This is the golf club that Jamie Sadlowksi used to win his first RE/MAX Long Drive title. Also endorsed by Golf Digest. 'Put some noise in your Game' with Bang Golf's quality family of golf clubs!
- Bang-O-Matic is the first driver to feature the **Flow Alignment System (FA)** technology design. Flow Alignment directs more energy from the club head to the ball with less power dispersion. Most modern-day drivers deliver only 78% of the proper directional energy toward the ball with 22% dispersion of energy. With the unique Flow Alignment System technology, the energy transfer rate is increased up to 94%. This contributes to a straighter and farther drive!
- Cup face design** enlarges the effective face area and sweet spot. The benefit is increased rebound effect for more distance. Conventional driver heads have a tig welding line behind the face, our innovative cup face design allows for welding on the body shell. This technique reduces the risk of cracks and makes the face thinner and wider promoting faster ball speed and more distance.
- 59 mm deep face design boosting confidence at address.
- 15-3-3 heat treated Beta Titanium Face.
