FULL SHAFT	71	E	69	FULL SHAFT
NO OFFSET	71	F	69	NO OFFSET
HALF SHAFT	70	G	70	HALF SHAFT
FULL SHAFT	70	H	70	FULL SHAFT
NO OFFSET	70	I	70	NO OFFSET
HALF SHAFT	69	L	71	HALF SHAFT
FULL SHAFT	69	M	71	FULL SHAFT
NO OFFSET	69	N	71	NO OFFSET
HALF SHAFT	68	O	72	HALF SHAFT
FULL SHAFT	68	P	72	FULL SHAFT
NO OFFSET	68	Q	72	NO OFFSET

FEATURES

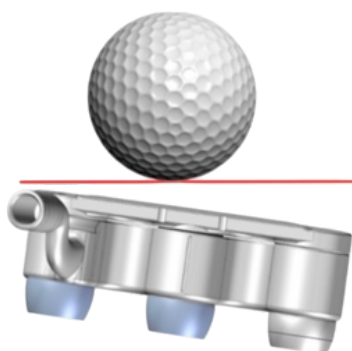

BALANCE COMBINATIONS

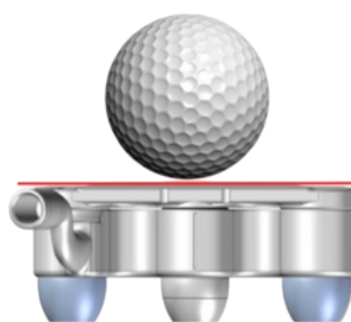

Our putters have adjustable weight ports for customizing balance and feel. Players can modify weight positions to influence toe flow and face rotation:

- **Heavier toe weights** promote an open face at impact, helpful for those who close the face early.
- **Heavier heel weights** encourage faster face rotation, aiding those who leave it open.

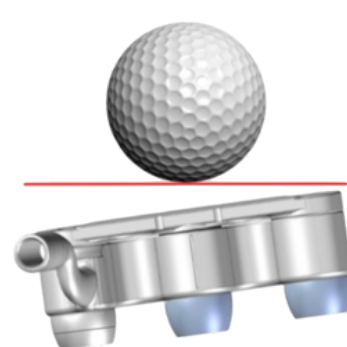

This system allows players to adapt their stroke for a more consistent roll and improved accuracy.

TENDS TO OPEN

REMAINS NEUTRAL

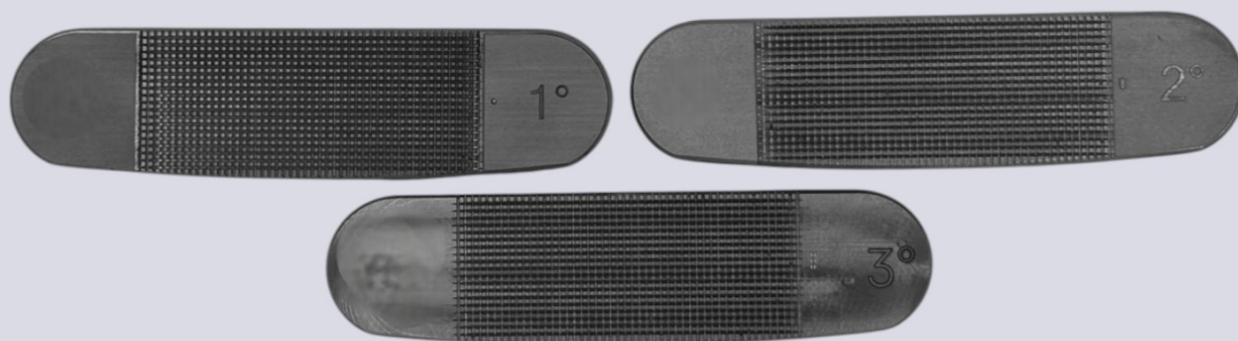

TENDS TO CLOSE

The standard flat head weights included on our putters are:

- 1** aluminum 26g (0,91oz),
- 2** stainless steel 54g (1,97oz).

FEATURES

INTERCHANGABLE CLUBFACES

If desired, the golfer can also vary the loft by purchasing extra clubfaces.

Loft available: 1°, 2°, 3°.

HOW TO CHANGE THE FACE

To customise your putter, loosen the screws with a torque wrench, swap the face, and tighten the screws until you hear a click, signaling they're secure.

CUSTOM OPTIONS DURING INITIAL CONFIGURATION:

- Lie angle selectable from 68° to 72°.
- Available for both right-handed and left-handed players.
- Choice of grip size: Medium or Jumbo.

ACCESSORIES AVAILABLE FOR PURCHASE:

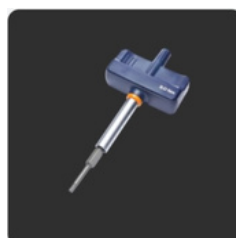

- 'Flat' style weights: aluminum (26g / 0.91 oz) and stainless steel (54g / 1.97 oz).
- 'Bullet' style weights: aluminum (26g / 0.91 oz) and stainless steel (54g / 1.97 oz)
- Extra clubfaces available with lofts from 1° to 3°.
- Torque wrench: a precision tool for easy assembly and disassembly.
- Putter cover made with leather and soft interior for advanced protection.
