

**The New Formula FIRE X  
Drivers – Taking Driver  
Technology, Spring Effect  
and Accuracy to a whole new  
level – Krank’s Hottest  
Drivers Ever!**

**Fire X is Rated For Average Drives  
between 200 and 260 Yards & Swing  
Speed Range 80-105 mph**

**Formula FIRE X High COR Driver**

The Formula FIRE X HIGH-COR/HIGH CT Driver is 100% handmade, cupped faced forged and is rated for swing speeds between 105 and 85mph or average driving distance of 260 to 200 yards. Krank Golf is the only golf driver company that makes 3 different driver face thicknesses. This driver is the middle face thickness. We do not build cast drivers! We specialize in the in the highest-grade beta titanium. Our metal is significantly harder than virtually any other driver on the planet. Enjoy the next evolution of Krank speed and accuracy. The New FIRE X HIGH-COR/HIGH CT Driver encompasses the outrageous ball speeds and stability everyone is so used to with Krank Drivers.

The FIRE X HIGH-COR/HIGH CT Driver encompasses everything we have learned over the past 22 years about driver performance. From triple plasma welding, the latest hardened Beta Titanium, to added sole plate louver placement for maximum energy transfer back to the golf ball. We push every possible advantage to gain performance. There is no comparison in performance or durability. Enjoy the next Krank Revolution and hit the ball FASTER – STRAIGHTER – LONGER with The New Formula FIRE X HIGH-COR/HIGH CT Driver by Krank Golf.

From 26 World Long Drive Championships to making the undisputed longest hitting drivers for the medium to slower swing speed golfers. We cover every golfer, at every age and at every swing speed. Follow the SCIENCE! It's not that complicated. Don't settle for thick faced drivers anymore!

***KRANK IT UP!!!***
