

The New Formula FIRE XX Drivers – Taking Driver Technology, Spring Effect and Accuracy to a whole new level – Krank’s Hottest Drivers Ever!

Fire X is Rated For Average Drives of 200 Yards or less & Swing Speed Range <80 mph

Formula FIRE XX High COR Driver

The New Formula FIRE XX SUPER HIGH-COR/HIGH CT Driver is 100% handmade, cupped faced forged and is rated for swing speeds of 80mph and lower or average driving distance of 200 yards or less Krank Golf is the only golf driver company that makes 3 different driver face thicknesses. This driver is the thinnest face thickness. This driver is the highest spring effect driver in the world, period!

We do not build cast drivers! We specialize in the in the highest-grade beta titanium. Our metal is significantly harder than virtually any other driver on the planet. Enjoy the next evolution of Krank speed and accuracy. The New Formula FIRE XX SUPER HIGH-COR/HIGH CT Driver encompasses the outrageous ball speeds and stability everyone is so used to with Krank Drivers.

The Formula FIRE XX SUPER HIGH-COR/HIGH CT Driver encompasses everything we have learned over the past 22 years about driver performance. From triple plasma welding, the latest hardened Beta Titanium, to added sole plate louver placement for maximum energy transfer back to the golf ball. We push every possible advantage to gain performance. There is no comparison in performance or durability.

Enjoy the next Krank Revolution and hit the ball FASTER – STRAIGHTER – LONGER with The New Formula FIRE XX SUPER HIGH-COR/HIGH CT Driver by Krank Golf.

KRANK IT UP!!!
