

A classic players' shape with CG position designed to shape the ball with more precision □ □ **Features:**

- New 415cc swept back head shape profile with more forward and slightly higher CG to enhance ability to work the ball in a trajectory that is more commensurate with a penetrating, lower spin shot pattern
- All 519SHPR drivers undergo six separate face thickness QC check during production to ensure the most consistent and highest CT and smash factor
- The front sole area of the 519SHPR is designed with less face to back radius to allow easier measurement of head specifications for fitting accuracy
- Finished in all Black Oxide with Cool Matte Black Crown. Available in RH in 9° and 11°.
